**About Me:** <https://kishan-sarodiya.github.io/about-me/>

## Profile Summary

WordPress Developer with 9+ years of experience building and maintaining dynamic, high-performance websites using WordPress, PHP, MySQL, JavaScript, HTML, and CSS. Specialized in custom theme and plugin development, WooCommerce solutions, ACF-based dynamic websites, and converting Figma/PSD/HTML designs into fully responsive WordPress sites. Experienced with Elementor, AJAX, REST API integrations, and performance optimization, and actively leveraging **AI-assisted tools to improve development speed, code quality, and workflow efficiency** in modern WordPress projects. Known for writing clean, scalable, and maintainable code while collaborating with global teams using Git and project management tools such as Jira, Trello, Asana, and ClickUp, delivering reliable solutions from development to deployment and ongoing support.

## Employment History

### **Technical Team Lead, E2M Solution Pvt. Ltd., Ahmedabad – (June 2022 – Present)**

- Promoted from **Senior Developer to Technical Team Lead**, managing a team of frontend and backend developers and ensuring efficient project execution.
- Led **project planning, sprint allocation, and daily task tracking**, ensuring timely delivery and smooth coordination across development teams.
- Provided **technical leadership, mentorship, and problem-solving support** to developers across multiple WordPress and web development projects.
- Developed and maintained **custom WordPress websites using Elementor, ACF, PHP, JavaScript, HTML, and CSS**, focusing on scalable and user-friendly solutions.
- Leveraged **AI-assisted development tools** to improve coding efficiency, automate repetitive tasks, and accelerate development workflows.
- Built **dynamic WordPress features using ACF, AJAX, and REST APIs** to deliver flexible and data-driven website functionality.
- Developed **custom forms with complex logic** and integrated form submissions directly with **Salesforce CRM** and other marketing platforms.
- Built and integrated **third-party APIs** including CRM, marketing automation, and analytics platforms to extend website capabilities.
- Created **reusable React components integrated within WordPress** to enhance modern UI functionality and improve front-end performance.
- Collaborated closely with **digital marketing and SEO teams** to develop conversion-focused landing pages and marketing-driven website features.
- Conducted **code reviews, performance optimization, and security improvements**, ensuring clean, maintainable, and scalable code standards across projects.

**Sr. WordPress Developer, Squad Technologies Pvt. Ltd., Ahmedabad – (April 2016 – May 2022)**

- Led frontend development using modern technologies including **React.js, Tailwind CSS, JavaScript, HTML, and CSS** to build responsive and high-performance user interfaces.
- Developed and maintained **WordPress websites and WooCommerce-based eCommerce platforms**, implementing custom functionalities and scalable solutions.
- Built dynamic websites using **Elementor, ACF (Advanced Custom Fields), and other WordPress page builders**, enabling flexible content management.
- Integrated **RESTful APIs and third-party services** such as CRMs, payment gateways, and marketing tools to extend website functionality.
- Utilized **Twig templating engine** to create structured and maintainable frontend architecture for custom WordPress themes.
- Managed **Git repositories and version control** across multiple environments including development, staging, and production.
- Worked in an **Agile sprint-based development process**, handling tasks and coordinating with team members to meet project deadlines.
- Collaborated with **UI/UX designers and backend developers** to ensure seamless user experience and consistent design implementation.
- Provided **technical guidance, code reviews, and support to junior developers**, promoting best practices and code quality.
- Optimized **website performance, caching, and database queries** to improve speed, scalability, and reliability for large-scale websites.

**Jr. WordPress Developer, Alian Software, Anand – (April 2015 – March 2016)**

- Began career with **Android application development**, supporting backend integration and REST API connectivity.
- Collaborated with mobile developers to manage **data flow**.
- Transitioned into **WordPress development**, contributing to both backend and frontend implementation.
- Developed and customized **WordPress themes and plugins** based on project requirements and client specifications.
- Built **responsive and cross-browser compatible user interfaces** using HTML5, CSS3, and JavaScript.
- Troubleshoot technical issues and gained hands-on experience in **debugging, performance optimization, and website stability**.

## **Academic Qualifications**

- MSCIT(Information Technology) from **Sardar Patel University**, Vallabh Vidyanagar, India (Class of 2013 - 2015).
- BSCIT(Information Technology) from **Atmiya College** Rajkot, India (Class of 2010 - 2013).
